#### **CHOOSE LEG TYPE:**

<u>FINISHED:</u> Select the Finished Leg pattern if your fabric frays or sheds, you don't want to see raw edges, or you want bulkier legs. Each leg will be sewn into a tube. As a result, the construction of the finished legs takes longer and uses more fabric.

<u>UN-FINISHED</u>: Select the Un-Finished Leg pattern if your fabric does not fray and/or you want to see raw edges. These legs are thinner and are not sewn.

Connect the antenna pattern pieces at the dotted line before cutting fabric.
